Hi Dave,

Hope all is going well with you and that getting back to work has not been too stressful. I didn't want to add extra work to the backlog so put off sending this a bit.

Anyway, here is our ADB submittal for 2010. As I mentioned, I've just filled the tables and used the form 'assessment details' and/or 'assessment summary' to make sure everything was coming out right.

Let me know if you have any problems receiving or opening the file (I'm not sure I can send an Access file with our email program – if not, I'll have to find another way to send this to you)

I've also included a short Excel file that I used to create the TMDL table. The final table is on the sheet with the same title and has lookups for site and cause. The sheet 'workspace' shows how I put the table together – basically combining the list I had created from our watershed reports with the list you sent – just in case you want to see the gory details(!) There is also a sheet that lists discrepancies I found between our TMDL list and your list. I've listed them in several groups and Jason has added notations that will give you the latest information.

Thank you,
Peter Bierly
